WAR FOOD ADMINISTRATION
Food Distribution Administration
Washington 25, D. C.

June 18, 1943

FRUIT AND VEGETABLE BRANCH MEMORANDUM NO. 4

To: All Inspectors
From: W. G. Meal, Chief
Subject: Inspections for War Shipping Administration

During recent weeks inquiries have been received in the Washington office concerning the method of handling fees in connection with the inspections made at the request of or on behalf of the War Shipping Administration. It is believed applicants for such inspections, in most instances, are, or will be, representatives of the War Shipping Administration.

The War Shipping Administration in Washington advises that all services for inspection (either fresh or processed products) should be charged and billed to the operators (steamship companies operating on behalf of the War Shipping Administration) and not direct to that Administration, even though the applicant may have been one of its authorized representatives.

The War Shipping Administration is a Federal facility and, consequently, collection of fees covering these inspections should be deposited to the credit of the National Trust Fund - (128015.1200).

W. G. Meal

Chief
